

Repeated Subtraction of a Factor

The numbers on the left in circles are multiples of the number on the right in boxes – keep subtracting the number in the boxes until you reach '0'. If you don't reach 0, check your answers to find out where you went wrong. You may need to jot some calculations down.

e.g

64	-16	48	-16	32	-16	16	-16	0	-16
----	-----	----	-----	----	-----	----	-----	---	-----

136	-34		-34		-34		-34		34
-----	-----	--	-----	--	-----	--	-----	--	----

588									147
-----	--	--	--	--	--	--	--	--	-----

1448									362
------	--	--	--	--	--	--	--	--	-----

1716									429
------	--	--	--	--	--	--	--	--	-----

5704									1426
------	--	--	--	--	--	--	--	--	------
