Weather	42-43
Where people live	44-45

Index 46-48

Let's see if you can use the contents page to know where to find information.

1. What page should I look at to find Wales? (not 'whales' – they're the creatures that swim in the sea!)
2. Which continent would I learn about on page 36?
3. Where would you find more about the Arctic Ocean?

And my final question... What is an index page for? (p46-48 on here) If you have a book with one in, have a go at using it.
