
Magic Squares

Can you put the digits 1 to 9 in a square so that every row, column and diagonal add to 15?

This example doesn't work:

1	3	5	→9	
9	6	4	→19	
2	7	8	→17	
↙13	↓12	↓16	↓17	↘15

Top Tips:

- What are the different ways of making 15 by adding three numbers?
- The middle square is used more than any other square.

Challenge:

There are 8 solutions. How many can you find?
