GABON

● Keeping our furry cousins safe

Tourists have been banned from seeing Gabon's gorillas, in case they pass on the coronavirus to them. So far, Africa has reported only a small number of cases of the virus, but the poor standard of healthcare in many countries there means that the continent could be hit very hard if the virus takes hold. Gorillas can suffer from some of the same diseases as humans, including colds and pneumonia, and many African gorillas have been killed by Ebola in previous outbreaks. "The respiratory viruses that affect humans are easily transmitted to great apes because the two species are so closely related," park official Christian Tchemambela told AFP.

CANADA

● Less scaremongering, more caremongering!

Kind Canadians have invented a new word and spread a worldwide trend called caremongering. The word was created for social media groups in Canada that were set up to provide help to people in need. The groups aim to stop people from scaremongering, which means to create panic and fear. "It's spread the opposite of panic in people, brought out community and camaraderie [trust], and allowed us to tackle the needs of those who are at-risk all the time, now more than ever," Valentina Harper told the BBC.

NEW ZEALAND

● Taxis for the birds!

A taxi driver has become the leader of a volunteer army who rescue Hutton's shearwater chicks that crash-land onto roads. The Hutton's shearwater is the only seabird in the world that nests and raises its young in the mountains. On foggy nights, the grey puffballs mistake glimmering roads for the sea and fly straight into them. They're then unable to move, and might get hit by a car or eaten by a cat. Fortunately, Toni Painting and her volunteers are there to help. Toni drives around every night, scooping up the birds she finds helpless at the side of the road, before dropping them off at a rehabilitation centre, which then gets them back to the sea.

SAUDI ARABIA

● Maraya means mirrors

A Saudi Arabian company has built the largest mirrored building in the world. Located in the west of Saudi Arabia's Al-'Ula region, the Maraya Concert Hall is 26 metres tall and can seat 500 people. The building is covered by a total of 9,740m² of mirrors.

USA

● Basketball record

A teenager has set a world record for the most 'bounce juggles' in one minute with three basketballs. Zaila

Avant-Garde has been practising dribbling basketballs since she was five. She also practised bounce juggling, where you bounce balls off the ground, for two years before trying for the record. She performed the feat on her 13th birthday and managed 231 bounces in one minute. That's about four bounces every single second and 18 more than the previous record. Zaila is a keen basketball player and hopes to join a team in the WNBA (Women's National Basketball Association) one day. "The more the achievements of women are promoted, the more little girls around the world will see that they can do any and everything they put their minds to," she said.
