

ible and able word endings**What's the rule?**

When we **cannot** identify a root word, we most commonly **add ible**, eg legible.

When you **can** identify the root word this means that you **are able to**, therefore we add **able**.

Eg **forgivable** means you are able to forgive.

Sort these word beginnings to the correct ible or able ending. Add more examples if you can think of any.

leg____	value_____	invinc_____	terr_____	ador_____	dispos_____
ed____	horr_____	break_____	enjoy_____	respect_____	agree_____
ible			able		

Choose three words and put them all into the same silly sentence!
